

## **LECTURE 5**

# **Information System**

---

1. Parts of an information system
2. Computer-based information systems
3. Systems analysis and design

# 1. Parts of an information system

---

- People, end users
- Procedures
- Hardware
- Software
- Data

## 2. Computer-based information systems

---

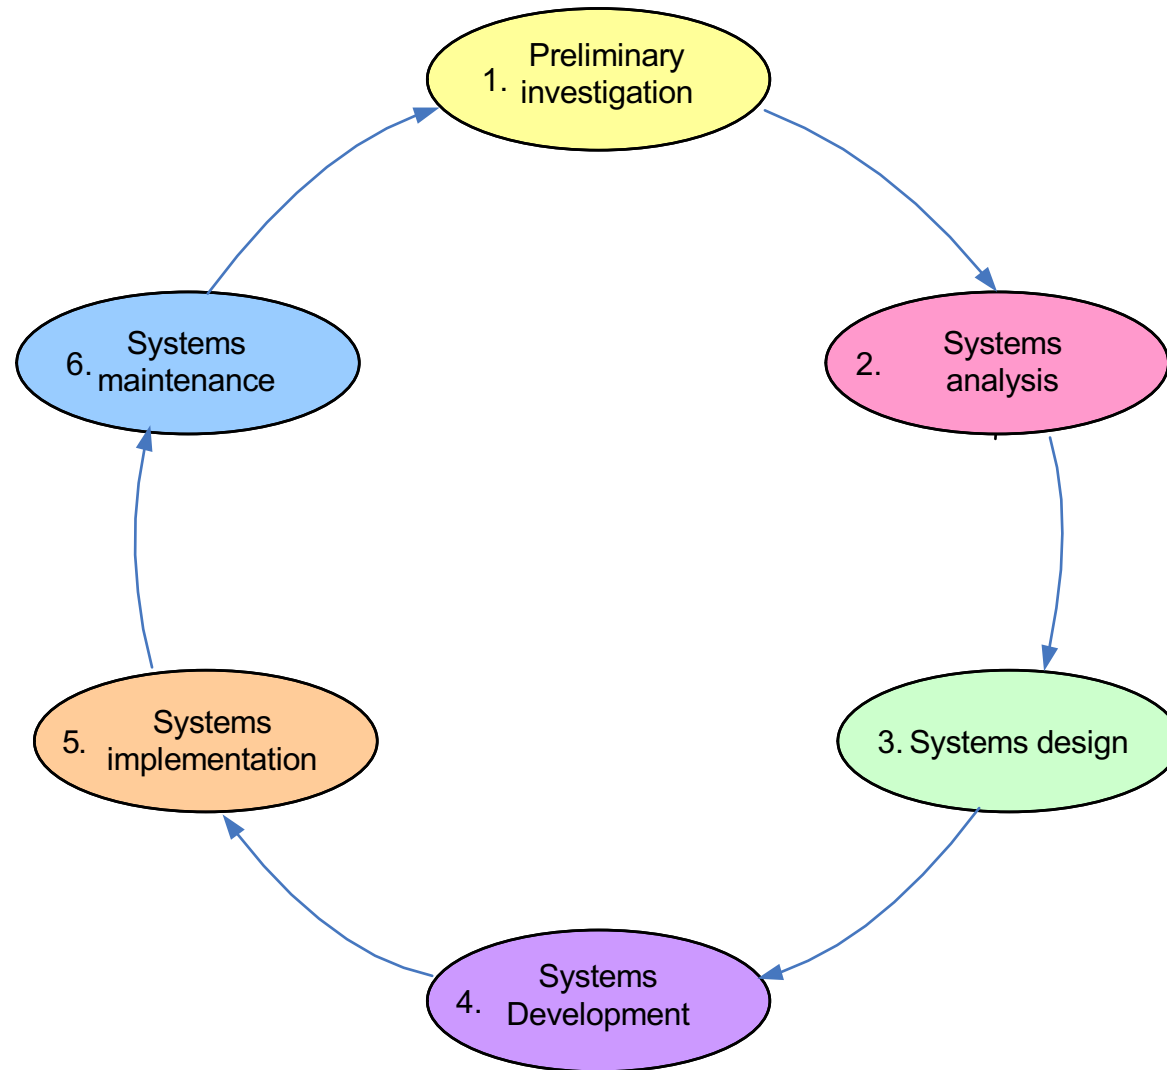

- Transaction processing system
- Management information system
- Decision support system
- Executive support system

### 3. Systems analysis and design

---

- Phase 1: Preliminary investigation
- Phase 2: Analysis
- Phase 3: Design
- Phase 4: Development
- Phase 5: Implementation
- Phase 6: Maintenance

# Systems Life Cycle

# Phase 1: Preliminary investigation

---

- Defining the problem
- Suggesting alternative systems
- Preparing a short report

## Phase 2: Analysis

---

- Gathering data
- Analyzing the data
- Documenting systems analysis

## Phase 3: Design

---

- Designing alternative systems
- Selecting the best system
- Writing the systems design report

## Phase 4: Development

---

- Acquiring software
- Acquiring hardware
- Testing the new system

## Phase 5: Implementation

---

- Types of conversion
- Training

## Phase 6: Maintenance

---

- Systems audit
- Periodic evaluation
